◆ Middle Eastern and North African Studies	◆ ◆ Psychology	
◆ Mild to Moderate Disabilities		

# JOIN THE UNIVERSITY OF ARIZONA

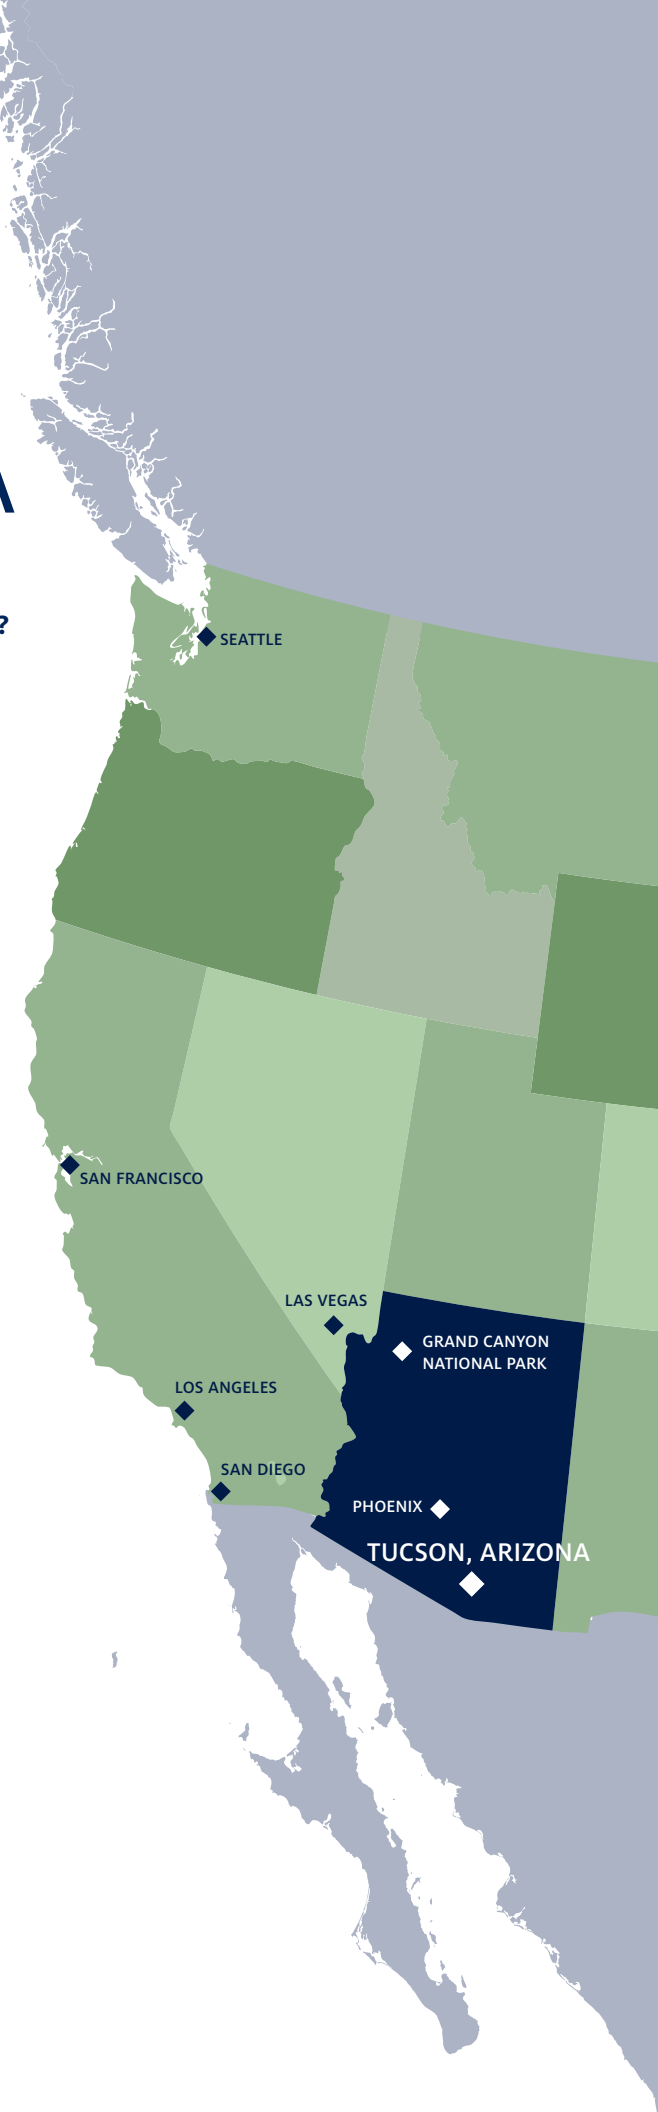

## WHY DO STUDENTS FROM ACROSS THE GLOBE CHOOSE UARIZONA?

As one of the most respected research universities in the United States, the University of Arizona provides more than just a world-class education. We empower students to develop the necessary skills of research, discovery, and creativity. Our faculty members include some of the brightest minds in the world, and we prepare and push our students to solve complex societal problems. You have a wide range of top-ranked programs to choose from at the University of Arizona!

And, with our vast global connections and study abroad opportunities, you will establish a network of friends and future colleagues to last a lifetime, not just in Tucson, Arizona – but from around the world.

## THIS IS TUCSON

Tucson, home of the University of Arizona, blends the beauty of its Sonoran Desert surroundings with the excitement and amenities of a major city with live music, one-of-a-kind events and world-class museums. Tucson is known for its low cost of living and a small-town community friendliness. The city is located in the state of Arizona, close to California, Mexico, and the Pacific Ocean. With an average of 350 sunny days annually, it's a great place to enjoy biking and other outdoor adventures throughout the year.

## BEYOND THE CLASSROOM

The UArizona provides support to students as they earn their degrees through academic and faculty advising, tutoring services, on-campus housing and International Student Services. Additionally, students can learn leadership skills in over 600 student organizations, focus on wellness and fitness at our Student Recreation Center and Campus Health and cheer on student athletes as they compete in 21 NCAA Division 1 athletic programs.

Many students who start their educational careers at the University of Arizona choose to continue into full-time graduate study here or at other top universities around the world. Exceptional undergraduate students in select majors even have the option to earn both a bachelor's and master's degree in as few as 5 years through Accelerated Master's Programs.

## GLOBAL NETWORK

The University of Arizona works with partner universities near and far to grant high-value U.S. degrees outside the United States, at an affordable price. Earn a degree from the University of Arizona and a partner university entirely in one country, or travel throughout our network of global locations – including the main campus in Tucson – achieving a truly global university experience. The future is interconnected. We'll make sure you are ready for tomorrow's global challenges.

## RESEARCH & INNOVATION

The University of Arizona offers a wide variety of academic programs, many of which are considered the best in the world. That's why we are recognized as the premier research university in the southwestern United States. We are a leader in engineering, dance, environmental sciences, optics, and Latin American studies. We also offer outstanding learning opportunities no matter what path you choose to study. You will have direct access to exceptional faculty members, including Nobel and Pulitzer Prize winners, and world-renowned experts in their fields. At the University of Arizona, you will find yourself learning in new and dynamic ways as your professors engage you through a mix of lectures, discussions, debates, lab work, and research.

## SCHOLARSHIPS AVAILABLE

The University of Arizona offers substantial, multi-year scholarships to students who exhibit outstanding academic performance, including freshman, transfer, and graduate students from all over the world!

Scholarships are available for incoming freshman and transfer students starting in either Spring or Fall. For incoming freshmen and transfer students, scholarship award values increase based on grade point average (GPA). Scholarships are also available to undergraduate students who earn English endorsement through UArizona's Center for English as a Second Language.

At the graduate level, funding decisions are primarily made within the program of study and are usually a combination of fellowships, assistantships, and/or grants. Funding offers are typically made at the point of admission.

You are automatically considered for scholarships when you apply for admission.
